

mira moon

Concept Profile

The new designer lifestyle hotel within the Mira brand portfolio, Mira Moon provides an easy, relaxed, atmosphere with individual and highly personalised details to cater to the needs of today's modern travellers. Showcasing distinctive design characteristics that stand in bold contrast to the more standardised hotels, Mira Moon is a member of Design Hotels™ and will appeal to those guests craving a unique experience.

Mira Moon combines style with substance, offering current state-of-the-art features which embrace innovation and creativity. Design, decoration, uniforms and service all adopt a fashionable language with uncompromising focus on quality, whilst creating a sense of theatrical drama through spectacular surroundings and magical interactions.

With a vibrant lobby bar for cocktails, chic restaurant serving innovative dishes, a fully-equipped gym, 90 contemporary guestrooms and a charming penthouse suite, Mira Moon represents 21st century style in Wanchai, Hong Kong.

Design

Conceived under the creative direction of Wanders & yoo, Mira Moon is a contemporary abstract interpretation of Chinese Hong Kong expressed through modern furnishings with antique Chinese fabrics and prints. The design is a modern interpretation of the Moon Festival fairy-tale - a legend in Chinese mythology about the Moon Goddess of Immortality.

The poeticism and characters from the story – Moon Goddess, Rabbit and the moon - are represented throughout the hotel. Other details can be found in the Peony flower walls, carpets, digitally selected Bisazza tiles and the lucky charm feature wall in the foyer.

The design concept is also inspired by Chinese craftsmanship with the use of ceramic, carved timber and cut crystal. A warm and sophisticated colour palette of orange, brown and light green is used throughout the hotel and draws upon ancient Chinese ceramics and artefacts.

This combination of Chinese heritage and workmanship has given the hotel a unique vibrant style with a twist of Wanders & yoo's artistic expression.
