## Concept Profile

---

Mira Moon, conceived under the creative direction of Wanders & yoo, is the latest boutique design hotel within the Mira brand portfolio located in the heart of metropolitan Wan Chai. A unique 91-room hotel and member property of Design Hotels™, it presents a playful reinterpretation of Chinese tradition in contemporary Hong Kong.

Modern tech-friendly features, include 32-46" HD LED IPTV, handy smartphone, iPad mini and free Wi-Fi, provide a creative environment and bring about a relaxing atmosphere with highly personalized details enhanced with complimentary minibar.

## Design

---

The interior design for the property takes as its starting point the Moon Festival fairy-tale, a legend in Chinese mythology about the Moon Goddess of Immortality. Updating this tale to suit a contemporary setting, the characters from the story are represented throughout the space, and references to traditional Chinese culture are expressed through modern furnishings with antique Chinese fabrics and prints, peony flower wall details, tailored carpets, digitally composed Bisazza tile graphics and a 'lucky charm' feature wall in the lobby.

Inspiration for the interior was also taken from traditional Chinese craftsmanship. Ceramics, carved timber and cut crystal are used throughout, creating a heady cultural mix which is made relevant today with a warm color palette of black and white, dark brown, red and gold.
